

The Chicagoland Air Sealing Pilot Program

Save on heating and cooling bills while staying comfortable in your home

- Rebates of up to 85 percent or \$1,000 on air sealing and up to 75 percent or \$750 rebate for attic insulation.
- Energy saving improvements made easy with expert guidance every step of the way
- Tests to check your indoor air quality including radon and combustion appliances
- A home energy report with custom recommendations that could help you cut natural gas and electricity bills

Upon approval of your application, you will be asked to submit a \$125 site assessment deposit. That deposit will be returned to you after air sealing work and post-testing has been completed.

The Chicagoland Air Sealing Pilot Program

The Chicagoland Air Sealing Pilot Program is a project of Peoples Gas and ComEd.

To find out more about ComEd's Smart Ideas program visit ComEd.com or call 888-806-2273.

- Rebates of up to 85 percent or \$1,000 on air sealing and 75 percent or \$750 for attic insulation
- Energy saving upgrades completed by qualified technicians
- An energy assessment of your home
- Tests to check for healthy indoor air

THE CHICAGOLAND AIR SEALING PILOT PROGRAM

Apply today and start saving money with the Chicagoland Air Sealing Pilot Program

You may be wasting money due to air leaks

Heated and cooled air could be escaping from your home through small gaps and cracks. Proper air sealing can help stop drafts and make your home more comfortable. Most importantly it can help to reduce your heating and cooling costs!

What is the Chicagoland Air Sealing Pilot Program?

The Chicagoland Air Sealing Pilot Program offers air sealing and attic insulation services at a minimal cost to you. It can also help you throughout the process of making additional energy saving improvements. The program offers the following benefits:

- Two radon tests to check indoor air quality
- A home energy assessment to find the best energy saving investments for your home
- Air sealing and attic insulation work completed by qualified technicians
- A post-work energy assessment to ensure that combustion appliances are operating safely and to make sure your home has not been too tightly sealed
- Rebates of up to 85 percent or \$1,000 on air sealing and up to 75 percent or \$750 for attic insulation

Here's how it works

You must first submit a \$125 deposit with your application. Qualified technicians then will determine the best and safest way to make energy saving improvements to your home.

- You will receive an energy assessment of your home to identify areas that could benefit from air sealing or other energy saving improvements.
- A radon test to verify indoor air quality
- Technicians will check your natural gas burning appliances to make sure they operate safely.
- Upon completion of the air sealing work and post-testing your \$125 deposit will be returned to you.

APPLY TODAY!

This program is available to a limited number of homes on a first-come, first-served basis. Apply today at ChicagolandRebates.com or call 1-877-908-9693 to request an application.

Rebates

You could receive a rebate of 85 percent (up to a maximum rebate of \$1,000) for air sealing and 75 percent (up to a maximum rebate of \$750) for attic insulation on the energy saving improvements. Once the work is complete, you continue to enjoy lower natural gas and electricity bills and a more comfortable home for years to come.

Who can participate

The Chicagoland Air Sealing Pilot Program is open to Peoples Gas and ComEd customers who have a single family home or two-flat building in the City of Chicago. Before air sealing and attic insulation work can begin, your home must pass a radon test and a home energy assessment which is provided to you through this program.

TYPICAL AIR SEALING IMPROVEMENTS

Air sealing improvements provided through this program could include sealing air leaks around:

- attics
- recessed lights
- crawl spaces
- duct work
- basements
