Construction and LSC Update for the PTA Meeting

November 3, 2010

Construction meetings occur weekly with the PBC (Public Building Commission), CPS (Chicago Public Schools) varied personnel and the contractor, Blinderman. There has been a change in meeting days; from Wednesdays to **Tuesdays at 9:30 a.m.**

South Door Entrance on Kilpatrick will be closed for day-to-day use for safety reasons for the month of November. We are taking extra precaution while the steel beams and masonry go in place on the east side of the building. The students will be shifted further north on the front lawn for recess.

Mock Brick Wall was built to match the formula of the existing building. We currently have five different patterns throughout the building. They matched the brick pattern with majority of the original building. It's a darker formula than the elevator pattern!

Track E: We were denied by CPS to go Track E Calendar for the 2011-2012 school year because the construction will not be completed until the end of August 2011. The contractor is looking to connect the main building to the addition over the summer months.

LSC Update: The LSC approved to move money for additional technology for the classrooms in the amount of \$81,000. This money was acquired because the Board over estimated the amount of students we would receive this year and gave us three additional quota teaching positions. We swapped one teaching position we pay for out of our discretionary funds, for a position the Board pays for. This released the funds back to our account.
